

## Table of contents

### INTRODUCTION

- 1 The alcohol industry: How has it changed and matured?** 1  
W.M. Ingledew<sup>1</sup>, G.D. Austin<sup>2</sup>, D.R. Kelsall<sup>2</sup> and C. Kluhspies<sup>3</sup>  
*<sup>1</sup>Ethanol Technology Institute, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*  
*<sup>2</sup>Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*  
*<sup>3</sup>P.O. Box 67, Cresskill NJ 07626 USA*
- 2 Status of the worldwide fuel alcohol industry** 7  
C. Pilgrim  
*Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*
- 3 The worldwide beverage distilling industry** 19  
H. Collicutt  
*Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*

### COMMON ELEMENTS OF ALCOHOL PRODUCTION

#### *Feedstocks*

- 4 Corn: Genetics, composition and quality** 27  
D.M. Haefele<sup>1</sup> and A.J. Ross<sup>2</sup>  
*<sup>1</sup>Pioneer Hi-Bred, A DuPont Business, 7300 NW 62nd Avenue, PO Box 1004, Johnston IA 50131 USA*  
*<sup>2</sup>Pioneer Hi-Bred, A DuPont Business, 985 County Road 300 E, Ivesdale IL 61851 USA*
- 5 Sugar cane juice and molasses, beet molasses and sweet sorghum: Composition and usage** 39  
H.V. Amorim<sup>1</sup>, L.C. Basso<sup>2</sup> and M.L. Lopes<sup>1</sup>  
*<sup>1</sup>Fermentec Ltda, Av. Antonia Pizinatto Sturion, 1155; 13420-640 Piracicaba – SP, Brazil*  
*<sup>2</sup>Escola Superior de Agricultura Luiz de Queiroz (ESALQ-USP), Av. Pádua Dias, 11; 13418-900 Piracicaba – SP, Brazil*
- 6 Alternative feedstocks for fuel ethanol production** 47  
D.A. Monceaux  
*AdvanceBio LLC, 5405 Dupont Circle, Milford OH 45150 USA*
- 7 A primer for lignocellulose biochemical conversion to fuel ethanol** 73  
B.S. Dien<sup>1</sup> and R.J. Bothast<sup>2</sup>  
*<sup>1</sup>US Department of Agriculture, Agricultural Research Service, National Center for Agricultural Research, Fermentation Biotechnology Research Unit, 1815 North University Street, Peoria IL 61604 USA*  
*<sup>2</sup>National Corn-To-Ethanol Research Center, Southern Illinois University Edwardsville, 400 University Park Drive, Edwardsville IL 62025 USA*

## *Yeasts*

- 8 Yeast biology, monitoring and identification** 95  
S. Van Zandycke  
*Lallemand Inc., 176 Coney Island Avenue, Las Vegas NV 89123 USA*
- 9 Yeasts: Physiology, nutrition and ethanol production** 101  
W.M. Ingledew  
*Ethanol Technology Institute, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*
- 10 Yeast stress in the fermentation process** 115  
W.M. Ingledew  
*Ethanol Technology Institute, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*
- 11 Commercial yeast production for the fuel ethanol and distilled beverage industries** 127  
W.M. Ingledew<sup>1</sup>, G.D. Austin<sup>2</sup> and J.K. Kraus<sup>3</sup>  
<sup>1</sup>*Ethanol Technology Institute and* <sup>2</sup>*Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*  
<sup>3</sup>*Lallemand Inc., 1620 rue Préfontaine, Montréal QC H1W 2N8 Canada*
- 12 Yeast propagation** 145  
E. Bellissimi<sup>1</sup> and C. Richards<sup>2</sup>  
<sup>1</sup>*Amyris, 5885 Hollis Street, Suite 100, Emeryville CA 94608 USA*  
<sup>2</sup>*Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*

## *Milling and mash preparation*

- 13 Grain milling and cooking for alcohol production: Designing for the options in dry milling** 161  
D.R. Kelsall and R. Piggot  
*Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*
- 14 Wet milling and mash preparation** 177  
S. Kohl  
*Research and Development Lab, ICM Inc., Colwich KS 67030 USA*
- 15 Fractionation technologies for dry-grind corn processing** 193  
V. Singh<sup>1</sup> and D.B. Johnston<sup>2</sup>  
<sup>1</sup>*Department of Agricultural and Biological Engineering, University of Illinois at Urbana-Champaign, Urbana IL 61801 USA*  
<sup>2</sup>*Eastern Regional Research Center, ARS, USDA, 600 East Mermaid Lane, Wyndmoor PA 19038 USA*

## *Fermentation and coproducts*

- 16 Cleaning and hygiene in a distillery** 209  
C. Richards  
*Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*

<b>17</b>	<b>Batch fermentation and fermentor design</b> Z. Zhang <i>Lallemand Inc., 6100 Royalmount, Montréal QC H4P 2R2 Canada</i>	229
<b>18</b>	<b>Continuous ethanol fermentation</b> J.D. Sheppard <i>North Carolina State University, Raleigh NC 27695 USA</i>	259
<b>19</b>	<b>Fermentation management</b> C. Earnest <sup>1</sup> , C. Snyder <sup>2</sup> and S. Westra <sup>3</sup> <sup>1</sup> <i>Aventine Renewable Energy Inc., PO Box 10, Pekin IL 61555-0010</i> <sup>2</sup> <i>Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA</i> <sup>3</sup> <i>SELC, 3890 Garfield Ave., Sioux Center, Iowa 51200 USA</i>	275
<b>20</b>	<b>Ethanol distillation: The fundamentals</b> P.W. Madson <i>KATZEN International, Inc., 2300 Wall Street, Suite K, Cincinnati OH 45212 USA</i>	289
<b>21</b>	<b>Dryhouse technologies and DDGS production</b> D.A. Monceaux <sup>1</sup> and D. Kuehner <sup>2</sup> <sup>1</sup> <i>AdvanceBio, LLC, 5405 Dupont Circle, Milford OH 45150 USA</i> <sup>2</sup> <i>Barr-Rosin, Maidenhead, Berkshire, UK</i>	303
<b>22</b>	<b>Utilisation of distillers' dried grains with solubles (DDGS) by cattle</b> M.E. Corrigan and R.A. Mass <i>Lallemand Animal Nutrition North America, 6120 West Douglas Avenue, Milwaukee WI 53218 USA</i>	323

## **FUEL ALCOHOL PRODUCTION: UNIQUE ASPECTS**

<b>23</b>	<b>Bacterial contamination and control</b> N.V. Narendranath <sup>1</sup> and S. Brey <sup>2</sup> <sup>1</sup> <i>POET Research, Inc., 4615 North Lewis Avenue, Sioux Falls, SD 57108 USA</i> <sup>2</sup> <i>Lallemand Ethanol Technology, Biotechnology Research Institute, 6100 Royalmount Avenue, Montréal QC H4P 2R2 Canada</i>	337
<b>24</b>	<b>Wild yeast contamination and control of the process</b> D.A. Abbott <sup>1</sup> and W.M. Ingledew <sup>2</sup> <sup>1</sup> <i>Amyris, 5885 Hollis Street, Suite 100, Emeryville CA 94608 USA</i> <sup>2</sup> <i>Ethanol Technology Institute, 6120 West Douglas Avenue, Milwaukee WI 53218 USA</i>	357
<b>25</b>	<b>A quality assurance philosophy for the fuel ethanol industry</b> J. Ebert <i>United Wisconsin Grain Producers, W1231 Tessmann Drive, Friesland WI 53935 USA</i>	371
<b>26</b>	<b>Molecular sieve dehydrators: Why they became the industry standard and how they work</b> R.L. Bibb Swain <i>Delta-T Corporation, 323 Alexander Lee Parkway, Williamsburg VA 23185 USA</i>	379

- 27 **Fuel ethanol specifications and quality assurance in the US** 385  
 K.S. Davis  
*Hawkeye Gold, LLC, 224 South Bell Avenue, Box 2523, Ames IA 50010-2523 USA*
- 28 **Air and water: Environmental considerations and design** 391  
 T. Delano, S. Kohl and B. Roddy  
*ICM, Inc., 310 North First Street, Colwich KS 67030 USA*

## **DISTILLED BEVERAGE PRODUCTION: UNIQUE ASPECTS**

- 29 **Whisky: Grain mashing and fermentation** 413  
 H. Collicutt  
*Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*
- 30 **Beverage alcohol distillation** 431  
 R. Piggot  
*Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*
- 31 **Whiskies around the world** 445  
 J. Miles<sup>1</sup> and C. Richards<sup>2</sup>  
<sup>1</sup>*Anchor Bio-Technologies, Epping, 7460 Cape Town, South Africa*  
<sup>2</sup>*Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*
- 32 **Vodka, gin and liqueurs** 465  
 R. Piggot  
*Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*
- 33 **Rum: Fermentation and distillation** 473  
 R. Piggot  
*Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*
- 34 **Cachaça production** 481  
 C.A. Rosa<sup>1</sup>, A.M. Soares<sup>2</sup> and J.B. Faria<sup>3</sup>  
<sup>1</sup>*Departamento de Microbiologia, ICB, C.P. 486, Universidade Federal de Minas Gerais, Belo Horizonte, MG, 31270-901, Brazil*  
<sup>2</sup>*Fazenda Soledade S/N, Rio Grande de Cima, C.P. 97084, Nova Friburgo, Rio de Janeiro, 28601-970, Brazil*  
<sup>3</sup>*Food and Nutrition Department, Faculty of Pharmaceutical Sciences – São Paulo State University (UNESP), P.O. Box 902, Araraquara, São Paulo, 14801-902, Brazil*
- 35 **Distillation of AOC French spirits: Cognac, armagnac, calvados and Martinique agricultural rum** 491  
 M. Decloux<sup>1</sup> and X. Joulia<sup>2</sup>  
<sup>1</sup>*AgroParisTech, UMR GénIAI 1145, 1 av des Olympiades 91744 Massy cedex, France*  
<sup>2</sup>*LGC-ENSIACET-INPT, 118 route de Narbonne 31077 Toulouse cedex 4, France*

## **THE FUTURE**

### **36 Perspectives on the future of alcohol production 507**

C. Pilgrim<sup>1</sup> and S. Wright<sup>2</sup>

<sup>1</sup>*Lallemand Ethanol Technology, 6120 West Douglas Avenue, Milwaukee WI 53218 USA*

<sup>2</sup>*Spiritech, 1731 Lesperance Road, Techumeseh ON N8N 1Y3 Canada*
